

# MENU CORNERS MADE SIMPLE!

## Panel Corner Applicator™

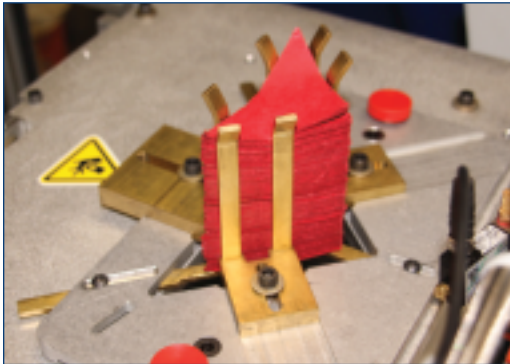

### *Machine Affixed Panel Corners Accurately Aligned Every Time!*

ODM Panel Corner Applicator™ is a semi-automatic machine designed to apply accurately aligned corners to menu panel inserts. No more carpal tunnel claims. Speed up production with this once hand process.

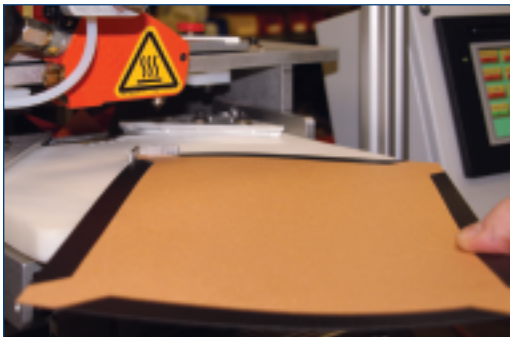

ODM Corner Panel Applicator™ can apply 4 corners per 20 seconds; **that's up to 180 panels per hour.**

#### STANDARD FEATURES:

- Easy-to-operate LCD touch screen control panel
- Dynatec hot-melt supply unit provides exceptional value that's designed for precision glue application.
- Consistent symmetrical corners applied every time.
- Adjustable score pressure

Top loading hopper stacks and pre-aligns corners. Holds up to 200 die cut corners.

Menu panel is hand inserted into precision guides prior to depressing foot pedal cycle for panel corner application.
