

## **On Demand Machinery Partners with Océ and TAP Custom™ to Produce 'Library-Quality' Hard Cover Books On Demand**

On Demand Machinery, manufacturers of hard cover bookbinding equipment has partnered with Océ, a manufacturer of digital printing presses and solution provider, and TAP Custom™, a leading supplier of hard cover materials to the 'Print-On-Demand' bookbinding industry. The ODM and Océ solution/partnership was recently on display at both their respective booths in Chicago at Print 09.

The digital era brings great new opportunities for publishers and printers. Digital printing systems that can produce runs as short as a single copy and still make economic sense. This is an innovation that will revolutionize the world of publishing. Digital book manufacturing makes truly demand-driven production possible, with run lengths and production cycles geared exactly to the demand of the moment. Océ provides solutions for just-in-time digital production of high quality books from pre-press to finishing, including online administration. The entire workflow is fully automated for maximum profitability.

On-site photo book machines are fast becoming an essential tool and a major profit center for photo labs as well. High quality, on-demand photo books can be produced 'in-house', which guarantees a fast turn around time and a satisfied customer. On-demand photo books are designed to meet the needs of fast-paced digital consumers who expect speed, quality and value.

On Demand Machinery manufacturers a line of bookbinding equipment that enables printers, publishers and photo labs to produce case-bound, hard cover books on-demand. The ODM bookbinding system is 'scalable' to fit your production requirements. The ODM casemaking system consisting of the Super Sewer™, Casemaker XXL™, Sticker XXL™, Smasher XXL™ and Separator™ will enable you to produce 'library-quality' books with end-sheets. Books ranging in size from 3"x5" to 18"x18"; up to 1/2" thick feature front cover window options, padded or non-padded covers, and quality 'turned-edge' construction.

Hard cover books are the next generation for the on-demand digital publishing, printing and photo lab industries. For free sample hard cover book that's simple to produce please contact On Demand Machinery.
